TAKE THE CHASE CHALLENGE!

IMPROVE YOUR PROFIT MARGINS WITHOUT SACRIFICING QUALITY.

Bring us your new or existing application, and we'll use our technical skill and unmatched portfolio of specialty, engineering and commodity thermoplastics and value-added services to deliver a quality, cost-effective solution. The result: improved manufacturing productivity and an improved bottom line for your business. That's a promise.

Saving money is just the beginning. At Chase Plastics, our expert team is equipped with the industry's broadest product portfolio and the knowledge and experience necessary to take the guesswork out of material selection.

More Materials

in stock, ready to be delivered wherever and whenever you need them, guaranteed.

We offer insightful technical service and application development support to help you avoid costly missteps throughout the development and manufacturing process. Whether you're looking to improve an existing application or launching an entirely new program, we'll help you slash cost and processing time without sacrificing quality.

When it comes to helping you meet and exceed your business goals, we're up to the challenge!
