

Real solutions. Real lawn and garden choice.

As the industry changes from day-to-day, so do the requirements of your products. With the industry's most comprehensive portfolio of engineering thermoplastics, we are well-suited to meet the needs of lawn and garden in a variety of applications.

Polymers ready to tackle any job

At Chase Plastics, we realize that not every material can meet the requirements of your lawn and garden application. That's why we have partnered with the world's top manufacturers to provide polymers that can excel in any environment. We can help select the right materials for your application's needs, including:

- Nylons (PA 6, PA 6/6, etc.)
- Engineered polyolefins (PP/PE)
- Polyvinyl chloride (PVC)
- Acetal (POM)
- Styrenics (ABS & ASA)
- Thermoplastic elastomers (TPE)
- Bioplastics and reprocessed materials
- Custom resin formulations
- Custom color matching

Count on us to provide plastics that deliver on:

- High-temperature exposure
- Soft touch aesthetics
- Structural rigidity
- UV resistance
- Wear performance
- Low-temperature impact
- Metal replacement
- Colorability

Versatile resins for versatile applications

From backyards to gardens, you need materials that can withstand a multitude of environments and elements. Our materials can keep up as you continue to push the limits on applications such as:

- Lawn mowers
- Outdoor power tools
- Hydroponics
- String trimmers
- Gardening tools
- Sprinkler components
- Small engine components
- Planting and seeding parts

Small engine solutions

From covers to fuel filler necks to carburetor parts, we've got materials to cover your mower engine needs. Our materials are well suited for use in:

- Engine covers
- Air filters
- Batteries and cases
- Bushings
- Ignition coils
- Fan blades
- Fuel and oil filter parts
- Starter parts
- Oil plugs
- Fuel tanks
- Engine impellers

Innovation to explore

We are committed to understanding the specific needs of your application and providing materials that get the job done. Chase Plastics aspires to provide solutions and be your trusted partner for material selection and problem solving. Through extensive insight and quality materials, along with outrageous service, we strive to find the best solutions for you.
