

From resin to reality, we make it happen.

Every product starts with a plan for success. And with us at your side, you can be rest assured that we're committed to helping you take your products from resin to reality... to results. From guiding you through product selection, to consulting on cost-effective solutions, to ensuring your materials arrive when and where you need them, we're dedicated to providing you with real solutions that push your business forward. Since 1992, we've been redefining resin distribution through a culture that revolves around serving our customers. Insightful technical knowledge, dedication, flexibility and responsiveness make up the winning formula for providing you with the outrageous service that you expect and deserve.

► Real people providing real solutions
