

Real insight from real automotive experts

Your premier supplier for emerging vehicle technologies

In the automotive market, meeting future goals starts with decisions made today. Chase Plastics is a trusted partner for insight on factors that can heavily impact performance and efficiency. We've strengthened our technical service support with the addition of dedicated on-staff experts to serve our automotive customers.

As industry experts with extensive automotive engineering backgrounds, we're passionate about providing robust solutions that are grounded in expertise. We rise above the industry standard and go well beyond the sale. Through extensive insight, our depth and breadth of resources, and outrageous level of service, we're driven to find the best solutions for you.

- ▶ Customized industry insight from Chase Plastics automotive development team
- ▶ Key supplier partnerships delivering OEM approved specialty and engineered products. We pride ourselves in double-and triple-sourced material options that meet specifications
- ▶ Extraordinary customer support and renowned service including same-day shipping and 2-hour call backs

From resin to reality

Even as industry standards evolve, our methodical approach extends to every step of the process.

From material selection, design assistance and testing to production and compliance—we're committed to doing more than helping you meet mandates and standards—we aim to exceed your goals.

- ▶ Material data and performance assessment—including variables such as heat dissipation, strength, flexibility, noise/vibration and structural integrity—to help you determine the best solution up front
- ▶ Access to a line of more than 35,000 engineering, specialty, and commodity materials

- ▶ Customized solutions geared around achieving your goals

- Lightweighting
- Emissions
- Sustainable materials
- Safety initiatives
- Cost savings
- Customer experience
- Technology acceleration

- ▶ Global sourcing and distribution through facilities in U.S., Canada and Mexico

- ▶ ISO 9001:2015, IATF 16949:2016, and ISO/IEC 17025:2017 certified supplier testing facilities

Driving your success

We are determined to understand your needs and provide downstream value – long after your product evolves in the manufacturing cycle. Chase Plastics aspires to be your trusted partner for material selection, problem solving expertise and supply chain management efficiency.
