- HQ: Clarkston, Mich.
- Employees: 98
- Founded: 1992

Chase Plastic Services Inc. believes in doing the best for its team – its No. 1 asset, it says – from compensation and benefits to growth and development opportunities, promoting from within as a first choice, and recruiting a workforce that adds to its positive environment.

“Being named a Best Place to Work validates that our culture isn’t just something written in a handbook; it’s lived every day by our team. It shows that we’ve built an environment where people feel heard, valued and empowered to do their best work,” said Gustina Sell, human resource manager. “What we feel most proud of is that, as we grow, we are keeping our ‘small team’ feel, where every individual knows their contribution matters. They feel supported and, in turn, they are engaged.”

Chase Plastics’ core values are high expectations, independence, teamwork, execution and character, all surrounding outstanding customer service.

“We have continuous focus on our core values so they don’t become words on a wall, and everyone is accountable for working by them,” Sell said.

“In addition, our leadership is very approachable, and our team members know they can discuss anything on their mind. We have also invested a lot of effort in building trust between departments. When we trust, collaborate and work together, we deliver the best work for our customers and suppliers,” she added.

Monitors throughout the facility display fun facts for Get to Know You Bingo as well as pet and child Halloween costume photos.

Competitive activities to build team spirit and bonding include cornhole tournaments, March Madness, chili cook-offs and trivia.

Speed to Innovation

TekniPlex reengineered its innovation model to help customers accelerate development timelines, without compromising performance, scalability or compliance.

The resin distributor also contributes \$500-\$1,000 into employee health savings accounts.

Special achievements on projects are acknowledged by management with awards that can range from \$100 to \$5,000. Employee-voted annual honors include the Outstanding Achievement Award, Mary Mier Award, John House Award and Spirit Award, among others.

To keep remote workers engaged in the culture, Chase Plastics incorporates online trivia tournaments and sending in 'best' photo competitions (best costume, turkey carving, beard, etc.).

"We also have all remote team members to our headquarters once annually and include an all-company team building event," the company said.

“Being on the list of Best Places to Work is a milestone, but certainly not the finish line,” Sell said. “We are focused on growth and on attracting and retaining the team members who make our culture successful.”
